# The Gap, Inc. NON-GAAP FINANCIAL MEASURES UNAUDITED

#### **FREE CASH FLOW**

Free cash flow is a non-GAAP financial measure. We believe free cash flow is an important metric because it represents a measure of how much cash a company has available for discretionary and non-discretionary items after the deduction of capital expenditures as we require regular capital expenditures to build and maintain stores and purchase new equipment to improve our business and infrastructure. We use this metric internally, as we believe our sustained ability to generate free cash flow is an important driver of value creation. Additionally, we provided free cash flow excluding the impact of the first quarter of fiscal 2020 which was significantly impacted by the sales decline as a result of the COVID-19 pandemic. However, this non-GAAP financial measure is not intended to supersede or replace our GAAP results.

#### ADJUSTED STATEMENT OF OPERATIONS METRICS FOR THE FOURTH QUARTER OF FISCAL YEAR 2020 AND 2019

The following adjusted statement of operations metrics are non-GAAP financial measures. These measures are provided to enhance visibility into the Company's underlying results for the period excluding the impact of charges resulting from a strategic review of the Intermix business during fiscal 2020 and impacts of separation-related costs, specialty fleet restructuring costs, and flagship impairment charges during fiscal 2019. Management believes that excluding certain items from operating expenses and operating income that are not part of its core operations provides additional information to investors to facilitate the comparison of results against past and future years. However, these non-GAAP financial measures are not intended to supersede or replace the GAAP measures.
